# **CHAIRMAN'S STATEMENT**

#### TRADING AND RESULTS

I am extremely pleased to be able to report another successful year for the group despite a very weak UK economy generally. Turnover increased by 10.3% to a record high of £2.48bn, thanks to a combination of like for like growth and incremental turnover from acquisitions. New and used vehicle sales increased by 10.3% and 4.6% respectively. Operating profit before goodwill amortisation increased by 18.3% to £73.0m, helping the group to surpass net assets of £500m for the first time.

Superb trading performances by Arnold Clark Finance Limited, our vehicle management and self drive hire business, and GTG Training Limited underline our strength across the group in a slowly recovering motor industry.

#### **ACQUISITIONS AND INVESTMENT**

The group continued to generate significant levels of operational cashflow, allowing us to invest in our existing property portfolio and to take advantage of acquisition opportunities both as retailers and as landlords. After five acquisitions in the first half of 2012, as reported in the Interim Statement, acquisition activity intensified in the second half of the year with a further twelve retail sites being added, increasing our number of franchised outlets by 34 in the year.

The trade and assets of two Volkswagen sites in Wishaw and Rutherglen, near Glasgow, were purchased in early August as well as strengthening our presence in North West England with the addition of Vauxhall branches in Morecambe and Kendal.

The most significant addition in the year came at the end of August, when we were delighted to announce the acquisition of the John R. Weir business. This acquisition added the largest Mercedes Benz market area in the UK, comprising of five key Mercedes sites in Grangemouth, Perth, Dundee, Aberdeen and Inverness as well as Smart in Perth, Inverness and Aberdeen. This long established business offers significant potential to move forward with a prestige franchise as well as adding Kia, Jeep and Chrysler representation in Perth.

Further dealership acquisitions took place in November with the purchase of a Vauxhall dealership and bodyshop in Blackpool complementing our earlier acquisition in the town. We also acquired the trade and assets of a Hyundai, Jeep and Chrysler site on the south side of Glasgow and a site in Kemnay, near Aberdeen, which represents Peugeot, Chrysler, Jeep and Chevrolet.

The group added to its investment property portfolio during the year with the purchase of a tenanted motor dealership in Bootle, near Liverpool, in June. The acquisition of a substantial building in Wolverhampton, which will be operated by GTG Training Limited, was completed in September. A major refurbishment programme is already underway with the facility set to be fully operational by summer 2013. This site will provide us with a bespoke training centre in England to meet all of our training needs as we expand, but is also available as a location for third party training and conferences and we are currently establishing relationships with local authorities and businesses. Our final acquisition in 2012 was a tenanted retail unit in Longman Road, Inverness which has longer term potential for motor retail activity.

### **CHAIRMAN'S STATEMENT**

#### REFURBISHMENT AND DEVELOPMENT

The redevelopment and renovation of our existing showrooms continued in the year. The Peugeot 'Blue Box' concept was adopted in our Hamilton Road, Glasgow showroom and creates a minimalist yet stylish customer environment. A full refit to our Irvine BMW branch was completed in February and was one of the first showrooms in the UK to incorporate the 'Slice Architecture' styling.

Works were completed on our flagship Ford dealership in Linwood, near Glasgow, in May. The multi-million pound redevelopment creates an unparalleled customer environment and this is reflected in the record levels of vehicle sales that have been achieved at the site. Other notable refurbishments in the year were to Northwich Vauxhall and two of our largest Volkswagen sites in Scotland. The group continues to invest heavily in our existing showrooms with further redevelopments underway.

Significant investment has also been made in our IT infrastructure, particularly with regard to our award winning and industry renowned website - www.arnoldclark.com. The site has seen a 49% increase in visitors in the year and is compatible with a multitude of media devices. Particular attention has been paid to increasing interaction with customers through social media and further technological advances are providing us with new and innovative marketing avenues.

#### **OPERATIONS BOARD**

In early 2012, the Board of Directors undertook an operational review with the aim of improving the efficiency of the group and achieving our medium to long term business goals. Following this review, it was decided to form an Operations Board reporting to the main Board of Directors, consisting of highly valued and experienced members of the Arnold Clark management team who, between them, cover all functional areas of the business. The impact of the Operations Board has already been substantial and I would like to thank them for their splendid efforts to date.

#### **FUTURE PROSPECTS**

Whilst the wider economic situation remains uncertain, the consensus in the motor industry is for modest growth in both the new and used retail markets. Our hard work and impressive results in recent years mean that we are confident about our ability to achieve profitable expansion, both organically and through strategic acquisitions. We have laid down strong foundations for growth and are fully committed to achieving our goal of being the UK's pre-eminent motor retailer.

On behalf of the Board, I would also like to extend my sincere thanks to our employees who are central to the group's ongoing success. Without their commitment and dedication these results would not have been possible. Continued investment in our staff and focus on overall customer experience is paramount to our vision and I look forward to what should be another successful year.

Sir Arnold Clark Chairman

Cambo Black

25 March 2013

### **DIRECTORS' REPORT**

The directors present their report and the group financial statements for the year ended 31 December 2012.

#### **RESULTS AND DIVIDENDS**

The profit on ordinary activities before taxation amounted to £60,505,000 (2011 - £51,762,000). The profit for the year, after taxation, amounted to £46,769,000 (2011 - £40,611,000).

An ordinary interim dividend of £2,098,000 was paid during the year (2011 - £nil). The directors recommend that no final dividend be paid, which leaves a profit of £44,671,000 (2011 - £40,611,000) to be retained.

The group's principal activities during the year were the hiring, selling and servicing of motor vehicles.

The group balance sheet discloses net current liabilities of £111m arising primarily as a result of hire purchase payments due on contract hire vehicles. These payments will be met from vehicle rental income receivable in the future under the relevant contract hire agreements.

The group's key financial and other performance indicators during the year were as follows:

	2012	2011	Change
Group turnover	£2,484m	£2,253m	10.3%
New car sales (units)	79,979	72,538	10.3%
Used car sales (units)	122,398	116,994	4.6%
Group operating profit before amortisation of goodwill	£73.0m	£61.7m	18.3%

New car sales increased by 10.3% in the year and like for like sales increased by 6.0%, which was above the industry average. The wider new vehicle market was buoyant in 2012 although it is predicted that growth will flatten in the coming year. Fleet sales increased by 11.5%, which was due to some significant contracts gained in the year.

Used car sales increased by 4.6% year on year, primarily a result of the branches that were acquired in the year. Like for like sales increased marginally, by 1.2%, in what was a relatively stable market.

Turnover reached a record high of £2,484m and group operating profit before amortisation increased by £11.3m as a result of the rise in vehicle sales and strong residual values.

The Board anticipate that, in light of the continuing tough economic conditions, 2013 will see modest growth in the UK motor industry. However, the strength of the company and the early trading results mean we can look forward with confidence. The Board predict that turnover will increase in the coming year and expect profitability to remain at levels similar to 2012.

A further review of the business is provided in the Chairman's Statement on pages 2 and 3.

#### MARKET VALUE OF LAND AND BUILDINGS

The group now has an extensive portfolio of properties throughout the UK. The directors are conscious that the group's properties represent an important and valuable asset and consider that the open market value of the group's land and buildings is in excess of £325m.

### **DIRECTORS' REPORT**

#### PRINCIPAL RISKS AND UNCERTAINTIES

The group's principal financial instruments comprise cash, cash equivalents, bank loans and hire purchase contracts. Other financial assets and liabilities, such as trade creditors and trade debtors, arise directly from operating activities. The main risks associated with the group's financial assets and liabilities are set out below.

Interest rate risk: The group invests surplus cash in a floating rate interest yielding bank deposit account and in short and medium term certificates of deposit. The group also has access to a floating rate interest bearing revolving credit facility. Hire purchase agreements and term toans are entered into at floating interest rates. The group's interest income and expenses are therefore affected by movements in interest rates. The group does not undertake active hedging of this risk.

Credit risk: The group has external debtors; however, the group undertakes assessments of its customers in order to ensure that credit is not extended where there is a likelihood of default.

Liquidity risk: The group aims to mitigate liquidity risk by managing cash generated by its operations.

**Price risk:** The group holds investments in the form of equity shares in publicly listed companies in the UK and certain other publicly tradeable investments. The group does not undertake active hedging of the market price risk associated with these investments, however the investments are all actively managed by investment management companies on behalf of the group.

General economic conditions: The group's performance is influenced by general economic conditions, consumer confidence and credit availability. Restrictions on the availability of retail credit could adversely impact the group. Consumer confidence in the UK remains fragile as a result of the wider economic conditions and therefore discretionary expenditure has been reduced by many customers. This may impact the number and type of vehicles that will be sold in the year.

Manufacturers: Many of our dealerships operate under franchise agreements with automotive manufacturers. We are dependent on the various manufacturers because, without a franchise agreement, we cannot operate a new vehicle franchise or perform manufacturer warranty services and, consequently, manufacturers exercise a degree of control over the operations of our franchised dealerships. Our franchise agreement may be terminated or not renewed by manufacturers for a variety of reasons. The success of the group also depends to a degree upon the reputation of the various manufacturers, particularly in relation to the marketing, design and build-quality of their products. A significant deterioration in the reputation of any of the major manufacturers may have an impact on the performance of the group.

#### **EMPLOYEE INVOLVEMENT**

Regular meetings are held between management and employees to allow a free flow of information and exchange of ideas.

#### **DISABLED EMPLOYEES**

The group gives every consideration to applications for employment from disabled persons where the requirements of the job may be adequately covered by a disabled person.

With regard to existing employees and those who have become disabled during the year, the group has continued to examine ways and means of providing continuing employment under normal terms and conditions and to provide training, career development and promotion wherever appropriate.

# **DIRECTORS' REPORT**

#### **DIRECTORS' STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS**

The directors who were members of the board at the time of approving the Directors' Report are listed on page 1. Having made enquiries of fellow directors and of the company's auditors, each of these directors confirms that:

- to the best of each director's knowledge and belief, there is no information relevant to the preparation of their report of which the company's auditors are unaware; and
- each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant
  information and to establish that the company's auditors are aware of that information.

#### **AUDITORS**

A resolution to reappoint Ernst & Young LLP as auditors will be put to the members at the Annual General Meeting.

On behalf of the board

6225 Lu.

E Hawthorne Managing Director

25 March 2013

# STATEMENT OF DIRECTORS' RESPONSIBILITIES

in respect of the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

# INDEPENDENT AUDITORS' REPORT

to the members of Arnold Clark Automobiles Limited

We have audited the financial statements of Arnold Clark Automobiles Limited for the year ended 31 December 2012 which comprise the Group Profit and Loss Account, the Group Statement of Total Recognised Gains and Losses, the Group and Parent Company Balance Sheets, the Group Statement of Cash Flows and the related notes 1 to 25. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS**

As explained more fully in the Statement of Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

#### SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

#### **OPINION ON FINANCIAL STATEMENTS**

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 December 2012 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **OPINION ON OTHER MATTER PRESCRIBED BY THE COMPANIES ACT 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

#### MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

for the year ended 31 December 2012

#### 1. ACCOUNTING POLICIES

#### **BASIS OF PREPARATION**

The financial statements are prepared under the historical cost convention, modified to include the revaluation of investment properties.

The financial statements are prepared in accordance with applicable accounting standards. The true and fair override provisions of the Companies Act 2006 have been invoked; see investment properties below.

#### **BASIS OF CONSOLIDATION**

The group financial statements consolidate the financial statements of the company and subsidiary undertakings made up to a date co-terminous with the financial year of the company. References to "subsidiaries" are to be taken as references to subsidiary undertakings unless otherwise stated. The results of subsidiaries acquired during the year are consolidated from the date of acquisition using the acquisition method of accounting and the results of subsidiaries disposed of are consolidated up to the date of sale.

Certain of the group's activities are conducted through joint arrangements and are included in the consolidated financial statements in proportion to the group's interest in the income, expenses, assets and liabilities of these joint arrangements.

No parent company profit and loss account is published, in accordance with the exemption available under s.408 of the Companies Act 2006; the profit dealt with in the financial statements of the parent company is £52,024,000 (2011 - £26,920,000).

#### **GOING CONCERN**

The group's business activities, a review of the business and a description of the principal risks and uncertainties, together with the group's financial risk management processes and narrative regarding its exposure to key financial risks are outlined in the Director's Report.

The group funds vehicles purchased for its contract hire fleet using hire purchase contracts from a number of providers. The vehicles are accounted for as fixed assets and a corresponding liability is recognised, an element of which will be classified as a current liability. This gives rise to the group's net current liabilities position at the year end. The directors have reviewed the group's forecasted cash flows and these are sufficient to meet the liabilities as they fall due.

Taking into account the above and after making enquiries, the directors believe that the group has adequate resources to meet its liabilities as they fall due for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the accounts.

#### **GOODWILL**

Positive goodwill arising on acquisitions is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

Negative goodwill is included in the balance sheet and is credited to the profit and loss account in the periods in which the acquired non-monetary assets are recovered through depreciation or sale.

for the year ended 31 December 2012

#### 1. ACCOUNTING POLICIES (CONTINUED)

#### **DEPRECIATION**

Depreciation is provided on all tangible fixed assets, other than investment properties, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful life, as follows:

Land and buildings

: Freehold

2%

Plant and equipment

: Leasehold : General

over the lease term 8.5% to 20%

: Computer equipment

33%

Motor vehicles

: Own use

12.5% to 40%

: Contract hire vehicles

straight line over the term of the hire contract

#### **INVESTMENT PROPERTIES**

Certain of the group's properties are held for long term investment. Investment properties are accounted for in accordance with SSAP 19. Investment properties are revalued annually and the surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit below original cost, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

Although the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the financial statements to give a true and fair view, since the current value of investment properties, and changes to the current value, are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation, and the amount which otherwise might have been included cannot be separately identified or quantified.

#### **STOCKS**

Stocks are stated at the lower of cost and net realisable value.

Net realisable value is based on estimated selling price less further costs expected to be incurred to completion and disposal.

The directors have considered the terms of the individual manufacturers' consignment stocking agreements with specific reference to those terms which have a significant bearing on the allocation of risks and rewards of ownership between the group and the manufacturer. These terms are the group's ability to return stock to the manufacturer without penalty, the manufacturer's ability to reallocate stocks to third parties and the point in time at which the consideration payable on adoption of the stock is determined. Where, based on this assessment, the directors consider that the substance of the manufacturers' consignment stocking agreements is such that the risks and reward of ownership are substantially transferred to the group, the stocks are recognised on the balance sheet and the corresponding liability to the manufacturer is included within creditors in accordance with Application Note A of FRS 5. In all other circumstances the consignment stocks and corresponding liability are not recognised on the balance sheet and are instead disclosed separately in a note to the financial statements.

for the year ended 31 December 2012

#### 1. ACCOUNTING POLICIES (CONTINUED)

#### **LEASING AND HIRE PURCHASE COMMITMENTS**

Assets held under hire purchase contracts are capitalised in the balance sheet and are depreciated over their useful lives. The capital elements of future obligations under hire purchase contracts are included as liabilities in the balance sheet. The interest elements of the rental obligations are charged in the profit and loss account over the periods of the hire purchase contracts and represent a constant proportion of the balance of the capital repayments outstanding.

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

#### **PROVISIONS FOR LIABILITIES**

A provision is recognised when the group has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. The effect of the time value of money is not material and therefore the provisions are not discounted.

#### **DEFERRED TAX**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold:
- provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that
  there will be suitable taxable profits from which the future reversal of the underlying timing differences can be
  deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### **PENSION COSTS**

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

for the year ended 31 December 2012

#### 2. TURNOVER AND SEGMENTAL ANALYSIS

Turnover represents the amounts due for goods sold, for services provided and for finance commissions and rentals earned stated net of discounts and value added tax.

Sales of goods are recognised when the goods are delivered, sales of services are recognised when the service has been provided and finance commissions are recognised on delivery of the related vehicles. Rentals receivable on vehicles held for use in operating leases are recognised on a straight line basis over the term of the lease.

The group operates in two principal areas of activity; that of distributing, retailing and servicing of motor vehicles and that of hiring motor vehicles. All activities take place within the United Kingdom.

An analysis of turnover, group profit before tax and net assets by business segment is given below:

		Distrib and servicing of I	uting, retailing	Hiring of m	otor vehicles		Total
		and servicing of i	2011	2012	2011	2012	2011

for the year ended 31 December 2012

### 7. TAX

The tax charge is made up as follows:		
<u> </u>	2012	2011
	£000	£000
Current tax:		
UK corporation tax	8,895	13,297
Adjustments in respect of previous years	485	(4,281)
Total current tax (note 7(b))	9,380	9,016
Deferred tax:		
Origination and reversal of timing differences	6,861	1,844
Effect of decreased tax rate on opening liability	(2,235)	(2,084)
Adjustments in respect of previous years	(270)	2,375
Group deferred tax charge (note 7(c))	4,356	2,135
Tax on profit on ordinary activities	13,736	11,151

(b) Factors affecting current tax charge  $% \left( \mathbf{b}\right) =\left( \mathbf{c}^{\prime }\right)$ 

The tax assessed on the profit on ordinary activities for the year is lower than the standard rate of corporation tax in the UK of 24.5% (2011 - 26.5%). The differences are reconciled below:

	2012 £000	2011 £000
Profit on ordinary activities before tax	60,505	51,762
Profit on ordinary activities multiplied by standard rate		
of corporation tax to the group of 24.5% (2011 - 26.5%)	14,824	13,717
Expenses not deductible for tax purposes	1,388	1,713
Accelerated capital allowances	(7,318)	(2,091)
Other timing differences	4	(42)
Application of small company rates	(3)	-
Adjustments in respect of previous years	485	(4,281)
Total current tax (note 7(a))	9,380	9,016

for the year ended 31 December 2012

#### 7. TAX (CONTINUED)

#### (c) Deferred tax

#### **GROUP**

The deferred tax included in the balance sheet is as follows:		
	2012	2011
	£000	£000
Included in provisions for liabilities and charges (note 17)	31,061	26,784
Accelerated capital allowances	32,822	28,199
Other timing differences	(1,761)	(1,415)
Provision for deferred tax	31,061	26,784
		£000
At 1 January 2012		26,784
Deferred tax charge in group profit and loss account (note 7(a))		4,356
Acquired with subsidiary undertakings		(79)
At 31 December 2012		31,061
COMPANY		
The deferred tax included in the balance sheet is as follows:		
	2012	2011
	£000	£000
Included in provisions for liabilities and charges (note 17)	5,926	5,798
Accelerated capital allowances	6,223	6,125
Other timing differences	(297)	(327)
Provision for deferred tax	5,926	5,798
		£000
At 1 January 2012		5,798
Deferred tax charge in profit and loss account		207
Acquired with subsidiary undertakings		(79)
At 31 December 2012		5,926

#### (d) Factors that may affect future tax charges

The tax charge in future periods may be affected by the group's continued ability to shelter gains through rollover relief. No provision has been made for tax in respect of gains rolled over. Gains that have been previously rolled over may crystallise in the future, if it is not possible to reinvest in suitable qualifying replacement assets, and result in an increased tax liability. The total amount of the tax unprovided is £3,600,000 (2011 - £3,900,000). At present, it is not envisaged that any tax will become payable in the foreseeable future in this regard.

The UK Government have announced their intention to reduce the main UK corporation tax rates to 20% by 1 April 2015. The reduction in the corporation tax rate to 23% was included in the finance bill that was substantively enacted on 3 July 2012 and is reflected in the deferred tax calculation. The further rate reductions will not be substantively enacted until later periods. Had the reductions already been enacted, the deferred tax liability of the group at 31 December 2012 would be reduced by £4,240,000 and the liability of the company would be reduced by £773,000.

for the year ended 31 December 2012

#### 8. GOODWILL

C	D	^	П	1	D

GROUP			
	Goodwill £000	Negative goodwill £000	Total £000
Cost: At 1 January 2012 Additions	10,967 7,412	(1,351)	9,616 7,412
At 31 December 2012	18,379	(1,351)	17,028
Amortisation: At 1 January 2012 Provided during the year At 31 December 2012	(9,989) (2,089) (12,078)	201 17 218	(9,788) (2,072) (11,860)
Net book value: At 31 December 2012	6,301	(1,133)	5,168
At 31 December 2011	978	(1,150)	(172)
COMPANY			Goodwill £000
Cost: At 1 January 2012 Additions			6,205 7,771
At 31 December 2012			13,976
Amortisation: At 1 January 2012 Provided during the year			(5,056) (2,284)
At 31 December 2012			(7,340)
Net book value: At 31 December 2012			6,636
At 31 December 2011			1,149

Goodwill arising on the acquisition of subsidiary companies and unincorporated businesses is amortised evenly over the directors' estimate of their useful economic lives, which is currently considered to be 5 years.

Negative goodwill arising on the acquisition of the share capital of Glasgow Training Group (Motor Trade) Limited is credited to the profit and loss account in the periods in which the acquired non-monetary assets are recovered through depreciation or sale.

for the year ended 31 December 2012

#### 8. GOODWILL (CONTINUED)

#### TRUE AND FAIR OVERRIDE ON DIVISIONALISATION OF SUBSIDIARIES

In order to rationalise the group structure following the acquisitions of certain subsidiaries, the trade and net assets of those subsidiary undertakings were transferred to the company at their book value as at the date of transfer. The cost of the company's investment in the subsidiary reflected the underlying fair value of its net assets and goodwill at the time of its acquisition. As a result of this transfer, the value of the company's investment in that subsidiary undertaking fell below the amount at which it was stated in the company's accounting records. The directors consider that, as there had been no overall loss to the group, it would fail to give a true and fair view to charge the diminution to the company's profit and loss account and it should instead be re-allocated to goodwill and the identifiable net assets transferred, so as to recognise in the company's individual balance sheet the effective cost to the company of those net assets and goodwill. The effect on the company's balance sheet of this departure is to recognise goodwill of £12,159,000 (2011 - £5,630,000). Amortisation of £1,561,000 has been charged in respect of this goodwill during the year (2011 - £1,126,000) and the accumulated amortisation is £6,065,000 (2011 - £4,504,000).

The company paid £1,241,000 for goodwill during the acquisition of the trade and assets of a number of smaller businesses during the year.

for the year ended 31 December 2012

#### 10. INVESTMENTS (CONTINUED)

The table below gives details of the group's principal operating subsidiaries. The group also includes a large number of non-trading companies and it is not practical to include all of them in this list. The list, therefore, only includes those companies that have a significant impact on the revenue, profit or assets of the group; a full list of subsidiaries is filed with the parent company's annual return. No subsidiary undertaking is excluded from the group consolidation.

Name of company	Country of registration	Holding	Proportion held	Nature of business
Principal subsidiaries:				
Arnold Clark Autocare Limited	Guernsey	Ordinary shares	100%	Investment holding company
Arnold Clark Finance Limited	Scotland	Ordinary shares	100%	Hiring of motor vehicles
Arnold Clark Holdings (Malta) Limited	Malta	Ordinary shares	100%	Insurance services
Arnold Clark Insurance Services Limited	Scotland	Ordinary shares	100%	Insurance services
GTG Training Limited	Scotland	Ordinary shares	100%	Provision of education and training
Harry Fairbairn Limited	Scotland	Ordinary shares	100%	Sale and servicing of motor vehicles

On 31 August 2012, the company acquired the entire share capital of Grangemouth Motor Group Limited. On 31 October 2012 the trade, assets and liabilities of Grangemouth Motor Group Limited and its subsidiary undertaking, John R Weir Limited, were transferred to Arnold Clark Automobiles Limited. The investment in Grangemouth Motor Group Limited is included in the company's balance sheet at cost.

Net assets and fair values to group at date of acquisition:

, , , , , , , , , , , , , , , , , , ,	£000
Tangible fixed assets	12,528

#### **GROUP**

At 31 December 2012 the group held vehicles on sale or return with a wholesale value of £128,174,000 (2011 - £119,057,000) excluding Value Added Tax.

Included in stocks is £62,579,000 (2011 - £72,977,000) in respect of vehicles where the risk and rewards of ownership are considered to lie with the group. The corresponding liability is included within creditors (note 13).

The directors are satisfied that the remaining vehicles totalling £65,595,000 (2011 - £46,080,000) are assets of the manufacturers. In relation to these stocks, the group primarily retains the right to return the stock to the manufacturer without significant penalty and/or has a limited ability to prevent the stock being allocated to third parties and/or the final price payable has not yet been determined.

#### **COMPANY**

At 31 December 2012 the company held vehicles on sale or return with a wholesale value of £122,665,000 (2011 - £111,331,000) excluding Value Added Tax.

Included in stocks is £57,070,000 (2011 - £65,251,000) in respect of vehicles where the risk and rewards of ownership are considered to lie with the company. The corresponding liability is included within creditors (note 13).

The directors are satisfied that the remaining vehicles totalling £65,595,000 (2011 - £46,080,000) are assets of the manufacturers. In relation to these stocks, the company primarily retains the right to return the stock to the manufacturer without significant penalty and/or has a limited ability to prevent the stock being allocated to third parties and/or the final price payable has not yet been determined.

#### 17. PROVISIONS FOR LIABILITIES AND CHARGES

GROUP	Commission clawback £000	Deferred taxation £000	Total £000
At 1 January 2012 Charged in the year	5,611 3,795	26,784 4,356	32,395 8,151
Utilised in the year  Acquisition of subsidiary undertaking	(3,211)	(79)	(3,211) (79)
At 31 December 2012	6,195	31,061	37,256
COMPANY	Commission clawback £000	Deferred taxation £000	Total £000
At 1 January 2012	5,546	5,798	11,344
Charged in the year Utilised in the year	3,802 (3,172)	207	4,009 (3,172)
Transferred from subsidiary undertakings	-	(79)	(79)

The company acts as a licensed credit broker and earns commission from a variety of finance companies. Under certain circumstances, where, for example, a finance agreement is terminated early due to legal action for non-payment, the commission, or an element of it, is repayable to the finance company. The commission clawback provision reflects the expected liability at the balance sheet date and is anticipated to crystallise over a period of up to five years in line with the terms of the associated finance arrangements.

Details of the deferred taxation provided in the accounts are included in note 7(c).

### 22. CAPITAL COMMITMENTS

At the year end, the group and company had capital commitments as follows:

		Group		Company
	2012 £000	2011 £000	2012 £000	2011 £000
Contracted but not provided for Authorised but not contracted	7,078 11,221	8,377 17,731	5,463 11,186	7,836 17,731
	18,299	26,108	16,649	25,567

for the year ended 31 December 2012

#### 23. OTHER FINANCIAL COMMITMENTS

In addition to buy back vehicles referred to in notes 11, 13 and 14, the company has undertaken to repurchase certain motor vehicles throughout 2013. As the company will be repurchasing these vehicles at trade values at the date of purchase, the directors consider that losses arising from disposal of the vehicles for less than the repurchase value will not occur and, accordingly, no provision for such losses is made in the financial statements.

#### 24. CONTINGENT ASSETS / LIABILITIES

#### **COMPANY**

Under a group registration for Value Added Tax the companies within the group are jointly and severally liable for Value Added Tax due by any member of the group registration. At 31 December 2012 the Value Added Tax payable by other members of the group registration amounted to £2,610,000 (2011 - £5,018,000).

Under the terms of an inter company guarantee, the parent company and its trading subsidiaries have jointly and severally guaranteed repayment of all sums due to The Royal Bank of Scotland plc by any of the parties to the guarantee. At 31 December 2012, the other companies included in the guarantee had net funds of £26,980,000 (2011 - £15,392,000) due from The Royal Bank of Scotland plc.

#### 25. ULTIMATE CONTROLLING PARTY

The directors consider that Sir Arnold Clark is the company's ultimate controlling party by virtue of his office and by virtue of the shareholdings of his immediate family.

The company has taken advantage of the exemption in FRS 8 from disclosing transactions with related parties that are wholly owned subsidiaries.
